

## Important Notes

### Test programmes and ring validation

Any designs proposed or performance levels indicated are based on experience and theoretical calculations. Tolerance ring performance is heavily dependent upon the other two component parts of the assembly and the ability of these components to withstand the forces generated by the tolerance ring.

We therefore strongly recommend a performance-testing program in order to establish actual assembly performance. It therefore follows that it may be necessary to revise our initial proposal based on actual test results.

Performance validation must be conducted with production intent components. Final design validation is the customer's responsibility.

### Tools and Designs and Confidentiality

This document is confidential and only intended to be viewed by the recipient. All drawings, designs, plans, operations, processes, product information, know-how and trade secrets contained in this document are and shall remain the property of Saint-Gobain Performance Plastics RENCOL<sup>®</sup> Limited ("RENCOL<sup>®</sup>") and RENCOL<sup>®</sup> reserves all rights therein. No rights in any intellectual property rights of RENCOL<sup>®</sup> are granted by this document. For the avoidance of doubt, RENCOL<sup>®</sup> shall have the sole right to proceed, at its sole discretion, with the registration of any patent or other intellectual property rights relating to the contents of this document. This includes, but is not limited to, any copyright covering any plans, drawings, models or industrial designs. By receiving this document you accept that you shall not oppose the registration or use by RENCOL<sup>®</sup>, its affiliates or licensees of any such registered rights for their own products because of your intellectual property rights.

In the absence of any other agreement, Saint-Gobain Performance Plastics RENCOL<sup>®</sup> Ltd retains the right to sell or propose design solutions to third parties, based on the output of any design or development work undertaken.

Any amount payable by the Buyer to Saint-Gobain Performance Plastics RENCOL<sup>®</sup> Ltd in respect of the Tools and Designs is deemed to be part of the Contract price and payment of such sum shall not give the Buyer any right, title or interest in the Tools and Designs or any part thereof unless otherwise agreed.

All other terms are as per Saint-Gobain Performance Plastics RENCOL<sup>®</sup> Ltd standard terms and conditions, a copy of which is available upon request.
